DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 2 is rejected under 35 U.S.C. 102(e) as being anticipated by Kortenbach (US 6,627,817).

Regarding claim 2, Korthenbach discloses a grommet (see figure 1a) for holding a wire harness (see figure 11b) including a plurality of wires on which an adhesive tape is wound, the wire has a water-stop portion (50'), and a water-stop agent is filled in interstices between the plurality of wires at the water-stop portion (see figure 11b), the grommet (see figure 1a) comprising: a first division member (4a, 2b; see figure 11a), having a convex portion formed on an outer face thereof (see figure 11a); and a second division member (2b,4b; see figure 11a; or figures 1a or 15), having a concave portion for receiving the water stop portion (50'; column 11 lines 1-11 and 45-50; and column 15 lines 30-44), the concave portion having a shape corresponding to a cross-sectional shape of the wire harness (see figure 11a) ; wherein the inner face of the first division member (see figure 11a) of the grommet has a flat face (see figure 11a; or column 15 lines 30-44 and column 4 lines 59-61).

Response to Arguments

2. Applicant's request for reconsideration of the finality of the rejection of the last Office action is persuasive and, therefore, the finality of that action is withdrawn.
3. Applicant's arguments with respect to claim 2 have been considered but are moot in view of the new ground(s) of rejection.
